A survey is context, not a product trial.

The supplied research discusses stool-eating behavior and reported approaches; it does not test the current Happy Paws formula.

PRODUCT RECORD

Lock the exact offer

The captured page displayed a 100-chew No Poo product priced at $34.99.

Product identity and directions do not establish reliable deterrence of stool eating.

RESEARCH DESIGN

Identify the evidence

The independent source provides owner-survey context for commercial products and approaches.

Reported experiences do not establish a controlled outcome for this exact marketed formula.

MISSING MATCH

Ask what was tested

Complete quantities, product specifications and a matched finished-product trial are not supplied.

Mechanism language, ingredient references and customer comments cannot substitute for that match.

The supplied packet does not establish reliable deterrence by this chew.

Sources: Happy Paws product page and the source-linked Daily Intel article. No finished-product proof inferred.

Four checks before a recurring order.

The captured product page displayed $34.99. A bottle price alone does not establish suitability or the full commitment.

01 / LABEL

What will the dog receive?

Obtain the complete ingredients and amounts per daily serving. Include the existing diet in the discussion.

02 / TERMS

What repeats?

Confirm one-time or subscription selection, frequency, next charge, cancellation steps and effective date.

03 / RETURNS

What qualifies?

The captured policy describes 60 days from order, original packaging and unopened or minimally used product.

04 / TOTAL

What will be paid?

Check current price, tax, shipping and discounts. The captured policy excludes shipping refunds.

Fill the gaps before deciding.

Keep the answer and its source together. A blank item is a question to resolve, not permission to assume.

- ☐ **Exact current formula and quantities**
- ☐ **Veterinary suitability and cautions**
- ☐ **Clearly defined stool-eating outcome**
- ☐ **Daily cost and bottle duration**
- ☐ **Study design and product identity**
- ☐ **Renewal amount and cancellation**
- ☐ **Matched formulation and serving**
- ☐ **Return eligibility and delivery cost**

Discuss individual suitability with a veterinarian; the page cannot decide it.
